Shuffle the 9 cards and place them face-down in a 3x3 grid. 2. Before starting, agree whether everyone will use the same order or whether each player may choose their own valid order (Bible verse order, alphabetical, numeric, or "personal-order" ...which can optionally be stated upon starting the sequence). If the deck has a natural order (like 1–9), you may simply use that (or reverse it, etc). 3. On your turn, choose either to explore or to attempt the full sequence: <ul style="list-style-type: none"> • Explore: Flip one face-down card, show it to everyone, then turn it face-down again. Your turn ends. • Attempt the sequence: Flip the card you believe is first in the agreed order. If it is correct, keep flipping cards one at a time, trying to continue the sequence. 4. If you ever flip a card that is out of order, your turn ends and all cards are turned.
